

Family Information Sharing Day

The National Autistic Society are running **FREE** information days to talk to people and their families, affected by ASC, about the changes that are occurring in the world of social care.

Personalisation is part of the government's approach to social care that allows individuals to be in the centre of their lives so that the support that they need is based on what they want.

The information sharing day will cover Community Care, from the basics of what it is and how it can be accessed, what Person Centred Planning, is Individual Budgets and Direct Payments are and how personalisation can work for you and the person you care for.

The next Family Information Sharing Day
near you will be on:

**Friday 20th November 2009, from 10am to 2.45pm at
The Bolholt Hotel, Walshaw Road, Bury, BL8 1PU.**

Refreshments and Lunch will be provided.
For more information and to book a place
